Dates of Attendance	September 2019 - Current

Please share your experience at WCBCS and the impact it has made in your life.

I've been working full time for the last decade and finishing my degree has always taken a back seat for one reason or another. In 2019, I felt strongly that I was supposed to finally finish my bachelor degree. After contacting West Coast Bible College & Seminary, I realized it was possible to receive a quality education without going into years of debt again. At thirty three years old, I'm now only four classes away from finally finishing my degree. And while going back to school, online, has been an adjustment, WCBCS has made the experience incredibly practical and obtainable. I follow the syllabus as the instructors have laid out and work at a pace that fits my schedule. But the most surprising and rewarding part of this journey has been how academically rich the courses have been. I have learned, acquired great resources and tools from my professors and have been challenged in subject matter that is applicable to my work. I am on track to finish at the end of May 2020. I will have a new confidence knowing that I finally have a degree. And I have realized I am capable of so much more than I thought and will be pursuing my master degree in the Fall of 2020. WCBCS has changed my life and my future.
